Cumulative confirmed COVID-19 case total	9,972
of which were new reports today	160
Cumulative individuals who were tested negative	22,173
Cumulative individuals tested	32,145
Cumulative number of tests carried out	37,314
Number of tests yesterday	1,090
Cumulative number of suspected COVID-19 deaths* reported to PHW	925
of which were newly reported	17

All data presented in this dashboard are provisional and will be subject to daily revision.

*Our deaths figures include any report to PHW of a death in a hospitalised patient or care home resident where COVID-19 has been confirmed with a positive laboratory test and the clinician suspects this was a causative factor in the death. Deaths occurring in other settings or where there was not a confirmed laboratory result are not included, however they are factored into the statistics reported by ONS using data available on completion of the death registration process. The newly reported deaths figure may include deaths reported retrospectively to PHW, and therefore be higher than the true recent increase.
